TC 1700 MAIL ROOM

IN THE CLAIMS:

Please add the following new claims 14-27 as follows:

14. (New) A method of making a golf ball having a core and outer layer and using first and second mold halves, comprising the steps of:

- a) allowing a first portion of polyurethane to partially cure to a first selected state of gel in a first cavity;
- b) positioning said core within said first cavity to mold said first portion of said polyurethane at said selected state of gel around said core;
- c) allowing a second portion of polyurethane to partially cure to a second selected state of gel in a second cavity of the second mold half;
- d) mating said first mold half and said second mold halves; and
- e) curing the polyurethane in the mated mold halves.
